38th AIVC Conference

6th TightVent Conference

4th venticool Conference

Ventilating healthy low-energy buildings

13 - 14 September 2017
Crowne Plaza Hotel
Nottingham UK
The need to reduce the energy demand of buildings is reflected in the legislation and policies of many countries. However, there is increasing concern about their adverse effects on occupant health and comfort in low energy buildings. These issues are being considered by some international energy conservation policy initiatives for buildings that seek to simultaneously reduce energy demand and provide acceptable indoor environment quality.

The minimisation of health risks and preservation of thermal comfort require the careful design and implementation of ventilation strategies and systems. There are many factors that must be addressed to achieve this goal, such as limiting occupant exposure to indoor and outdoor pollution sources, determining metrics capable of assessing indoor air quality, identifying factors causing overheating, and increasing envelope and ductwork airtightness.

It is this context that defines the core theme of the joint 38th AIVC, 6th TightVent and 4th venticool Conference as “Ventilating healthy low-energy buildings”. It will place its focus on:

- thermal comfort and ventilative cooling (the application of ventilation to cool indoor spaces and reduce overheating risk in buildings);
- air infiltration through cracks in the building envelope and ductwork;
- the relationships between ventilation, indoor air quality and health.

The conference is organised by:

- the International Network on Ventilation and Energy Performance (INIVE) on behalf of the Air Infiltration and Ventilation Centre (AIVC), TightVent Europe (the Building and Ductwork Airtightness Platform), and venticool (the international platform for ventilative cooling);
- Brunel University London;
- Nottingham University; and
- The Chartered Institution of Building Services Engineers (CIBSE).

*All above prices are in GBP*
CONFERENCE VENUE
The conference will be held in Crowne Plaza Hotel, Nottingham UK.

CONFERENCE PROGRAMME
Full programme will be available by the end of August 2017.

SCIENTIFIC INFORMATION
The conference will consist of 3 parallel tracks devoted to:
• to airtightness issues;
• ventilative cooling and thermal comfort;
• ventilation, indoor air quality and health.

CONFERENCE SECRETARIAT
Triena Tours & Congress SA
Mrs Georgia Kateriniou
15, Mesogeion Ave. 11526, Athens - GREECE • Tel: +30 210 7499300/318, Fax:+30 210 7705752
Email: secretariat@aivc2017conference.org www.aivc2017conference.org

IMPORTANT DATES
Deadline for abstract submission....................... 1 March 2017
Notification of abstract acceptance ..................... 1 April 2017
Deadline for paper submission ......................... 31 May 2017
Conference Dates ........................................ 13 - 14 September 2017
